Terra Elementis

Marketing & Brand Handover Pack

Prepared for: Marketing Head, Terra Elementis Inc.
Prepared by: Ash (OpenClaw)
Date: 2026-03-02

Included in this pack

1. Brand Guidelines
2. Marketing Measurement Plan (GA4 + GTM)
3. SEO & Structured Data Implementation Summary
4. Brand Asset References (logo + icons)

Purpose

This handover pack provides the approved brand framework, SEO implementation baseline, and measurement architecture needed for immediate marketing activation.

It is designed to support: - Consistent brand communication - Production-ready SEO operations - Investor and partnership funnel measurement - Cross-channel campaign execution with traceable attribution # Terra Elementis — Brand & Digital Marketing Guidelines

Last updated: 2026-03-02

1) Brand Positioning

Brand Promise
Terra Elementis is a sovereign-grade critical minerals platform building verified, financeable, and strategically aligned supply infrastructure.

Core Narrative Pillars - Strategic supply-chain resilience - Geological and reporting credibility - Institutional governance and execution discipline

Tone of Voice - Authoritative, precise, and calm - Zero hype language - Evidence-backed claims over marketing adjectives - Confident, not aggressive

---

2) Visual Identity System

Primary Palette

- Navy Deep: `#0A1628`
- Charcoal: `#141B2D`
- Navy Mid: `#1E2A3E`
- Gold: `#C5A55A`
- Gold Light: `#D4B96E`
- Gold Muted: `#8B7A3F`
- Text Primary: `#F0EDE6`
- Text Secondary: `#A0A0B0`

Typography

- Headings (serif): **Playfair Display**
- Body (sans): **Source Sans 3**
- Data/labels (mono): **JetBrains Mono**

Logo System (Current)

- Header symbol: `public/terra-symbol-earth.svg`
- Archived previous symbol: `public/logo-archive/`
- App/site icon: `src/app/icon.svg`
- Apple touch icon: `src/app/apple-icon.svg`

Logo Meaning (Earth Mark)

- Circular ring: sovereign trust + continuity
- Curved strata lines: geology / earth layers
- Crystal core: mineral value and extraction focus
- Gold-on-navy execution: premium, institutional, strategic

Logo Usage Rules

- Prefer gold logo on navy/charcoal backgrounds
- Minimum clear-space: 0.5x symbol diameter on all sides
- Do not distort, stretch, add shadows, or recolor outside approved palette
- On small UI placements (<24px), use simplified icon only

---

3) Messaging Framework for Marketing

Website Hero Formula

1. Strategic problem
2. Terra solution
3. Credibility proof
4. Execution call-to-action

Approved Message Themes

- U.S. critical mineral supply-chain resilience
- Verified reserve frameworks (NI 43-101, SEC S-K 1300)
- Institutional-grade execution and governance

Avoid

- “Revolutionary”, “disruptive”, or speculative language without proof
- Unqualified reserve or financing claims
- Investor language that may be construed as guarantees

---

4) SEO & Content Strategy (Execution Ready)

Primary SEO Topics

- Critical minerals platform
- Rare earth supply chain
- NI 43-101 reporting
- SEC S-K 1300 reporting
- U.S. strategic minerals investment ecosystem

On-Page Structure

- One clear H1 per page
- Semantic H2/H3 hierarchy
- 140–160 char meta descriptions
- Internal links between About, Strategy, Governance, Investors, Contact

Content Cadence (Recommended)

- 2 long-form articles/month
- 1 leadership or market commentary/month
- 1 technical explainer/quarter (reporting standards, reserves, compliance)

Conversion Events to Track

- Investor inquiry submissions
- Contact form submissions
- Time-on-page (Strategy, Investors)
- Scroll depth on home + investors pages

---

5) Social & PR Asset Specs

Social Image Standard

- Open Graph / Twitter: 1200×630
- Keep safe margin around logo and headline
- Use navy gradient background + gold accents

Favicon & App Icons

- Browser icon: `src/app/icon.svg`
- Apple icon: `src/app/apple-icon.svg`

Suggested Additional Assets (Marketing Team)

- LinkedIn banner (1584×396)
- X header (1500×500)
- Press kit folder (logo SVG + PNG dark/light variants)

---

6) Website Technical SEO Status

Implemented: - Global metadata + keywords - Canonical baseline - OpenGraph metadata - Twitter card metadata - Dynamic OG image route - Robots route (`/robots.txt`) - Sitemap route (`/sitemap.xml`) - Organization JSON-LD structured data - Updated icon/apple icon

Still recommended (next pass): - Connect Google Search Console + Bing Webmaster - Implement GA4/GTM tracking from `MARKETING-MEASUREMENT-PLAN.md` - Performance pass for LCP/CLS and image optimization - Add social profile URLs in `.env` for Organization schema (`NEXT_PUBLIC_LINKEDIN_URL`, `NEXT_PUBLIC_X_URL`)

---

7) Hand-off Checklist for Marketing Head

- [ ] Review and approve positioning language
- [ ] Approve final symbol variant

- [ ] Confirm official domain/social links for schema `sameAs`
- [ ] Confirm legal/compliance review language for investor pages
- [ ] Align content calendar to SEO topics
- [ ] Create social kit from provided style system

Notes for Engineering

- If primary domain is not `https://terraelementis.com`, update it in:
  - `src/app/layout.tsx`
  - `src/app/robots.ts`
  - `src/app/sitemap.ts` # Terra Elementis — Marketing Measurement Plan (GA4 + GTM)

Last updated: 2026-03-02

1) Measurement Objectives

- Measure investor intent quality
- Measure partnership inquiry quality
- Track content performance by section (Strategy, Governance, Investors)
- Improve conversion rate from visit → inquiry submit

2) Core Funnel

1. Landing page view (`/`)
2. Deep-content page views (`/strategy`, `/governance`, `/investors`)
3. Intent action (contact/investor form start)
4. Form submit success

3) Recommended GA4 Events

Standard events

- `page_view`
- `scroll` (90%)
- `session_start`

Custom events

- `investor_form_start`
  - params: `page_path`, `source`, `medium`
- `investor_form_submit`
  - params: `page_path`, `inquiry_category`
- `contact_form_start`
  - params: `page_path`, `inquiry_type`
- `contact_form_submit`
  - params: `page_path`, `inquiry_type`
- `cta_click`
  - params: `cta_name`, `page_path`
- `outbound_click`
  - params: `destination_url`, `link_text`, `page_path`

4) Conversion Definitions in GA4

Mark as conversions: - `investor_form_submit` - `contact_form_submit`

Secondary conversions: - `investor_form_start` - `cta_click` where `cta_name=Investor Relations`

5) Audiences to Build

- High Intent Investors: visited `/investors` + triggered `investor_form_start`
- Government/Institutional Interest: visited `/governance` or `/strategy` + `contact_form_start`
- Engaged Visitors: 2+ pageviews + 90% scroll on any key page

6) Dashboard Blocks (Looker Studio)

- Traffic overview by channel/source/medium
- Top landing pages + engagement rate
- Investor funnel conversion rates
- Contact funnel conversion rates
- Page-level assisted conversions

7) GTM Data Layer Spec (Optional)

If using GTM, push events like:

```
window.dataLayer = window.dataLayer || [];
window.dataLayer.push({
  event: 'investor_form_submit',
  page_path: window.location.pathname,
  inquiry_category: 'institutional'
});
```

8) Governance & QA

- Verify events in GA4 DebugView before launch
- Validate no PII in event params
- Ensure form success triggers only once per submit
- Review monthly: channel performance + conversion quality

9) UTM Standards

Use strict UTM naming: - `utm_source` (linkedin, x, newsletter, partner) - `utm_medium` (organic, cpc, email, referral) - `utm_campaign` (q2-investor-push, strategy-brief, etc.) - `utm_content` (hero-cta, footer-link, post-variant-a)

10) Implementation Notes

- Add GTM container snippet to root layout when approved
- Add data layer pushes on submit handlers in `/investors` and `/contact`
- Keep event names lowercase snake_case
